

## Table II. Clinically significant neutrophil counts

Absolute Neutrophil Count (ANC)	Risk of infection
$> 1500 \text{ mm}^3$	Normal (not neutropenic)
1000 to 1500 $/\text{mm}^3$	Not increased
500 to 1000 $/\text{mm}^3$	Mild
250 to 500 $/\text{mm}^3$	Moderate
$< 250$	Severe
These categories have meaning only in cases where marrow reserve is significantly reduced
